Gary, I am attaching the draft diving plan for our first operation (1) integrity survey, and (2) SOP development for sampler placement and retrieval. We are shooting for the Monday and Tuesday of November 9 and 10<sup>th</sup>. We would probably need to drive a truck/equipment down Sunday evening and be ready to hit the water as early as possible in the morning on Monday. Wednesday is a federal holiday and we need to try to wrap up on Tuesday by noon or a little later.

Per your request, I am also enclosing some photos that might be useful to your current need.
